Specifications

DIFFUSION THROUGH NANOTECHNOLOGY

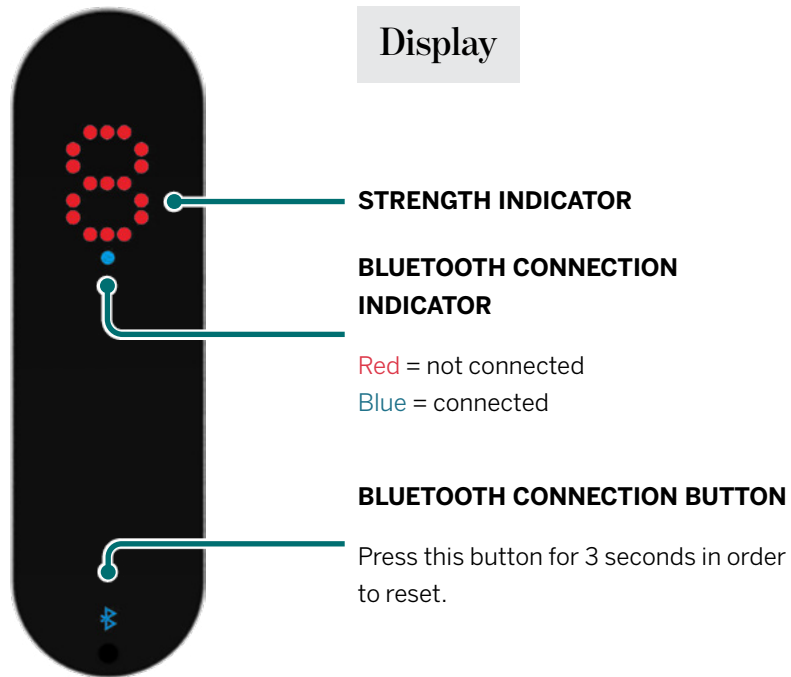

Display with a clear overview of the settings.

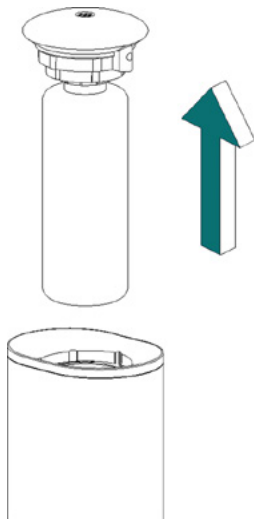

The nebulizer is located at the top of the unit.

The nebulizer is connected to the essential oil container.

How to replace the essential oil?

1

STEP 1

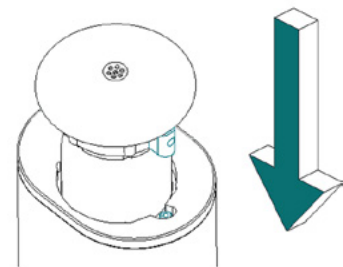

Remove the upper part of the unit.

2

STEP 2

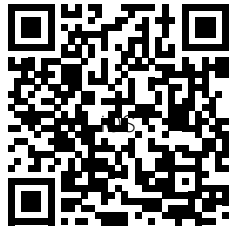

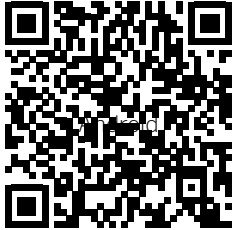

Unscrew the bottle of essential oil clockwise from the nebulizer and replace it.

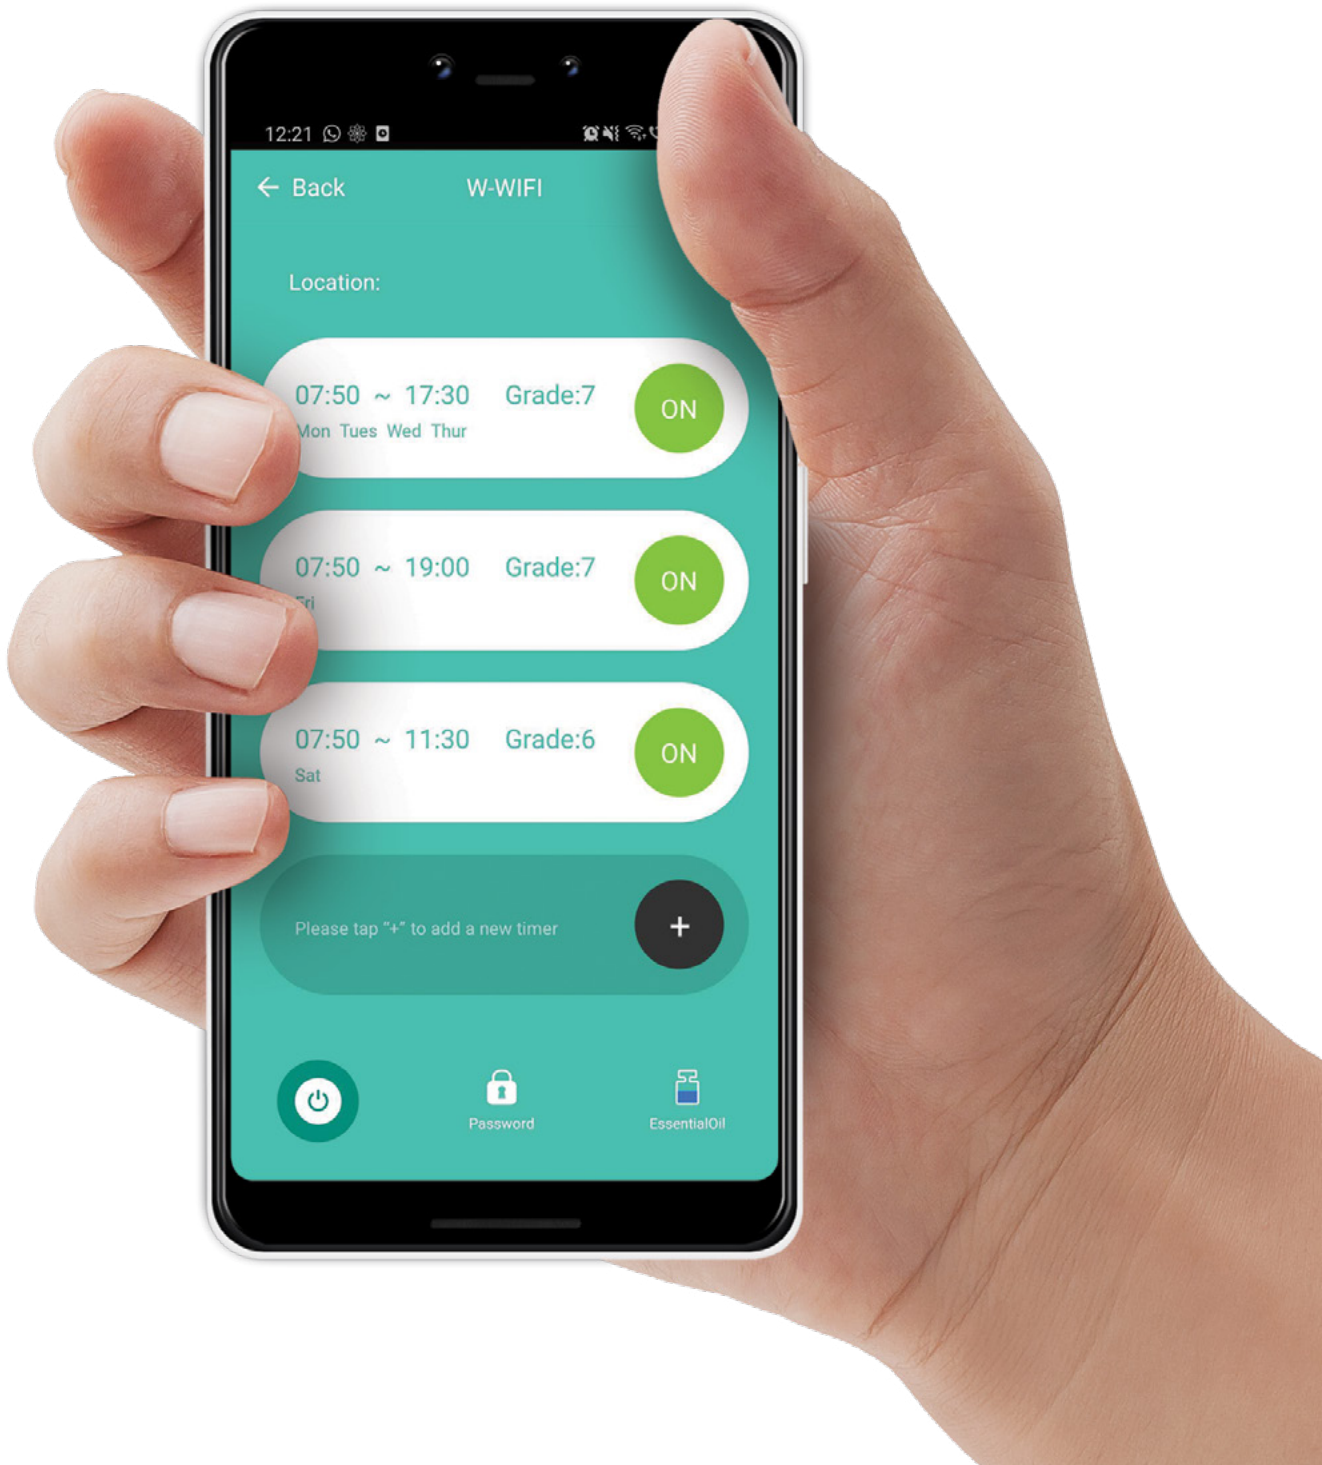

3

STEP 3

Press with both hands on the aluminum plate on top of the device. When you hear a click, the device is locked.

Easily manage all L2000 diffusers via your smartphone or tablet with the **Smart Scent** app.

Who are we?

Aromen is a young and dynamic Belgian company. Over the past eight years, we have been able to grow thanks to the drive of our whole team that all share the same passion and enthusiasm for wellbeing.

Founded by Martijn Vanhoorelbeke and Jurgen De Meester, in partnership with Dr. Stephen Lewis. Their expertise and passion for nature and science drive them to develop various models to support wellbeing through aromatherapy and make it easy to integrate into everyday life.

Martijn is a certified herbalist, Jurgen is an agricultural and biotechnology engineer and Dr. Stephen Lewis is a respected physician who specializes in preventive and immunity therapies.
